Ways that Rotary supports SCSD

- Vocabulary development and literacy skills
- Campus beautification
- Farm to Table Garden
- Volunteer support
- Thought partners

# Dictionaries for 3rd grade students

Fostering strong community relationships and lifelong learning with the annual 3rd Grade Dictionary Giveaway!

Each year, every 3rd grader in SCSD is gifted with a beautiful dictionary that is treasured by all!

# Heather's Chill Zone

# Arroyo — Chill Zone

The Arroyo Chill Zone is housed in our counselor's office. Students can visit the Chill Zone alone or with adult support if they need a place to de-escalate and regulate their emotions. In addition to comfortable seating, the Chill Zone has an assortment of fidgets, art activities, visual distractions, etc. to help students calm themselves.

# Tierra Linda — Raised Garden Bed project

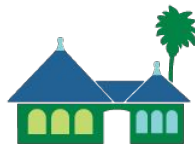

Grant Application (Approved!)

We would also like to continue our partnership with the San Carlos Rotary Club to engage our middle school students in growing healthy fruits and vegetables in an accessible raised garden bed near where they eat meals in the quad. This will enhance the landscape as well as provide easy access to projects that involve sustainable food growing methods. The district would like to partner with the Rotary Club of San Carlos to install a raised bed with vegetables that can be tended to by a student interest club and harvested for student consumption. The goal is to consciously place it in the quad where the students will often connect with it.

Here is a picture of the place where we would like to install the raised garden bed. It currently has rain barrels in place that are not working to support any growth.

We are beyond grateful for the support of our local community partners, the Rotary Club of San Carlos.
